

Rekord

Rekord is designed and produced entirely to CE mark European standards.

Rekord is the new Silca key cutting machine for cylinder keys for doors, vehicles and cruciform keys.

Duplicates with maximum precision and guarantees optimal working condition to the operator thanks to: high tech materials, ergonomic shapes, carriage movements by gears on a rectified carriage.

Compact machine dimensions, with optimised movements thanks to the innovative carriage transition lever position within the machine body

PLUS

- Sloping work surface
- Ergonomic handles and levers
- Compact dimensions
- Tools compartment
- Working tools area
- Led lamp
- Four face rotating jaws
- Adjustable tracer point
- Incorporated brush
- Carriage release lever

Rekord

Rekord

1 Tools compartment

A hinged compartment built into the body of the machine to keep all the maintenance tools safe and easy accessible.

2 Exclusive working tools area

Cover flat top, with anti slip coverage leaving space for keys, pins, tools in a useful and easily accessible working area.

6 Lamp

Powerful light in the working area thanks to an innovative led lamp integrated in the cover. Low energy consumption.

7 Brush

Convenient brush in top quality durable material, installed on the machine for finishing cut Keys.

3 Chippings tray

The inclination on the worktop ensures that the metal chips are conveyed directly into the tray.

8 Handles and levers

New ergonomic handles and levers. Rounded shape with modern silver satin coverage, easy to grip and to clean thanks to the finished surface treatment.

4 Clamps

The clamps have four sides which rotate to allow the key to be perfectly secured on its back or in profile.

5 Tracer point

The tracer point easily ensures regulation of the depth thanks to a controlled pitch grub screw.
